

PNT 5 Self Contained Tower has an internal air compressor that works on demand and dispenses the use of oil. This digital tire gauge eliminates high cost of installation, maintenance, and space.

Ideal for gas stations, parking lots, condominiums, and establishments that do not offer an air compressor and / or an air line.

Easy operation

Resistant keyboard

High performance air compressor with on demand drive

10 meter spiral hose

PRODUCT FEATURES

Applications:	Vehicles:	Technical Specification:
Gas Stations	Cars	Setting Pressure: 4 - 70 Psi (0,3 - 5 Bars)
Condos	Motorcycles	Weight Net/Gross: 25/27 Kg
Malls	Vans	Dimensions: 130 x 40 x 20 Cm
Parking lot	Trucks (VUC)	Voltage: 110 or 220 Vac (upon request)
Public Parks	Buses	Max Consumption Power: 700 Watts
Bicycles	Bicycle	Operating Temperature: 0 a +50°C
		Electrostatic Painting
		Direct Air Compressor

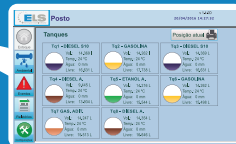

► Additional Information:

-  Easy installation;
-  Low energy consumption;
-  Fast, safe and precise calibration;
-  1 year warranty;
-  Audible and visual signals at the end of operation;
-  Waterproof and dustproof;
-  Converts pressure unit to PSI/BAR, BAR/PSI

■ Precise Information ■ Easy Operation and Management ■ Alerts and Email Notification ■ Meets the Standards
